Positive (in)Life: 2

How is it really to be positively creative, to think positive, to lead a positive life?
How does a moment feel like, when you first find out you are HIV positive?
How do you deal with it and come to realise it?
How is your life different when you become positive?

Two years ago in the Cyprus PRIDE 2015: "Positive(in)Life+", Logan Bellew spoke about photography, art, a life between the USA and Cyprus, and what it is like to live with HIV. On December 1st, 2017, the International AIDS Day, Logan will re-introduce himself in "**Positive(in)Life: 2**" and discuss the changes and transformations in his life.
